

After the success of Malaga´s 1<sup>st</sup> MOVE meeting and to foster collaboration between the members of different European EV Societies and Networks, we are happy to announce a special call of MOVE fellowships that will enable Early Career Researchers (*the applicants*) (technicians, PhD students and early-stage postdoctoral researchers ( $\leq$  five years, excluding career breaks)) to travel to another lab in Europe (*the hosts*) to develop both their technical skills and enlarge their own professional networks.

As a prerequisite, the applicant has to be **member of any of the following societies: SrbEVs, NOR-EV, PSEV, ISREV, SweSEV, PNEV** and the head of the hosting lab a current member of the National EV Society or Network of and European host country.

We will award **five** Fellowships in this special MOVE fellowships call. Applications will close on **April 1<sup>st</sup> 2024**. The Fellowship will cover travel and subsistence (but not bench fees) to a maximum value of 2000€, to work in a host lab at an academic institution in a different European country for a time period between one and three months.

### Application Process:

1. Discuss with your supervisor whether this fits with your role and share the list of potential host labs. You can find a list of the already adhered labs in this link

<https://docs.google.com/spreadsheets/d/19y7JppcAJLyTlaV21A5YCpyAfhtivkUh/edit#gid=691892813>

This is not a closed list, so if you plan to move to an european lab that is not listed, please contact us so we can check their eligibility.

2. Contact the Host lab and discuss the potential, have a CV ready!

3. Apply (**contact email**) by sending in a *single PDF file* the following documents:

1. Completed application form (see below)
2. CV including list of publications of the last 5 years of both the applicant and the Principal Investigator of the host laboratory
3. Motivation letter (max. 1 page)
4. Project outline (max. 1 page)
5. Experimental work plan (max. 1 page)
6. An estimated budget.
7. Letter of confirmation/acceptance and recommendation from the host laboratory that includes the title of the project proposed.

**Applications will be evaluated by the following scientific panel** on the basis of scientific quality and interest for EV field:

Dr. Bernd Giebel

Dr. Benedetta Bussolati

Dr. Charlotte Lawson

Dr. María Yáñez MÓ

The resolution of the Evaluation Committee is final, cannot be appealed and will be published on the different societies webpages. The title of the funded project will be also published on the webpage, however, the objectives will not be disclosed until the

stay has concluded. The Evaluation Committee will not enter into correspondence with the applicants.

**Fellow responsibilities.**

Once the MOVE-funded mobility stay has concluded, the Fellow should provide his/her society with

1. all invoices that substantiate his/her expenses up to 2000€. If expenses are not justified correctly, the fellowship should be refunded.
2. A brief report describing the activities carried out as well as a **short video** detailing the benefits to his/her scientific development. These reports could be published by MOVE societies.
3. MOVE Mobility Fellowship should be acknowledged in any publication or abstract that includes the data obtained during the stay.
4. Fellows could be requested to give a short talk at the next MOVE Meeting
